

Making Your Course Available to Students

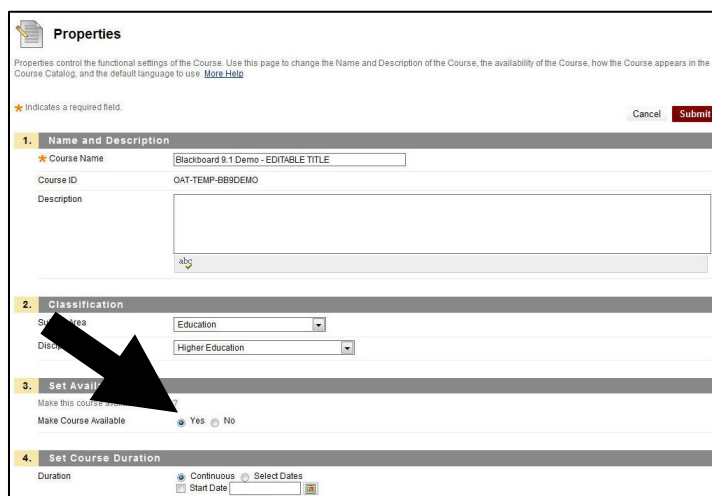

By default students cannot enter a course until the instructor has made it Available. This allows you to set things up before your users start accessing the site. If a course is unavailable, it will be noted in parentheses following its title on the main Blackboard page.

- From the **Control Panel** module below the red course menu, click on **Customization** and then **Properties**.

- Select the **Yes** radio button under **Area 3 - Set Availability** and then click **Submit** at the top right or bottom right.

Properties

Properties control the functional settings of the Course. Use this page to change the Name and Description of the Course, the availability of the Course, how the Course appears in the Course Catalog, and the default language to use. [More Help](#)
